JAPANESE JOURNAL OF OPHTHALMOLOGY

VOLUME 21, 1977

Contents

Juvenile macular degenerations.....*J. François*... 1
HLA and Vogt-Koyanagi-Harada syndrome.....*Yoshitsugu Tagawa, Seiji Sugiura, Hidetaka Yakura, Akemi Wakisaka, Miki Aizawa & Katsuaki Itakura*... 22
Development of epithelioid cell in tuberculin hypersensitized choroid: A light and electron microscopic study.....*Hidehiko Matsuda & Kazuo Ariga*... 28
Bowen's disease: A clinicopathologic study.....*Takashi Harada, Kazuteru Kojima, Motohiro Hoshino, Ikuo Watanabe & Hiroshi Ichikawa*... 40
Demonstration of masked acidic glycosaminoglycans in the normal human trabecular meshwork.....*Kuniyoshi Mizokami*... 57
Effects of glutaraldehyde upon some physiological properties of rabbit retinas in vitro.....*Yoshihito Honda & Marion G. Hope*... 72
A case of lymphoblastic lymphosarcoma originating from the eyelid.....*Makoto Araie & Teruo Tanishima*... 78
Aging effects and some properties on the human lens low molecular weight proteins.....*Izumi Kabasawa, G. Winston Barber & Jin H. Kinoshita*... 87
Clinical and histopathological studies of a case with juvenile form of Gaucher's disease.....*Hisayuki Ueno, Shinya Ueno, Takashi Kajitani, Junko Fujiwara & Seiko Kobuchi*... 98
Curriculum vitae of Professor Kimiho Irinoda.....117
The ocular manifestations of spontaneously hypertensive rat.....*Kimiho Irinoda*...125
Retinal vascular changes in the genetically hypertensive rats of the New Zealand strain.....*John C. Parr*...132
Permeability of retinal blood vessels in spontaneously hypertensive rats.....*Hiroshi Yoshimoto & Mikio Murata*...143
Retinal arterioles in the spontaneously hypertensive and other experimental hypertensive rats.....*Hiroshi Yoshimoto & Shigeki Takahashi*...157
Electron microscopic studies on the retina of stroke-prone SHR.....*Masato Ohkuma, Yukio Yamori, Ryoichi Horie & Masanobu Uyama*...176

Electron microscopic studies on the retinal vessles of spontaneously hypertensive rats (SHR).....*Tadao Sekino*...192

Caliber measurements of the retinal vessels in spontaneously hypertensive rats.....*Shuichi Matsuyama*...206

Topical indomethacin in intracapsular extraction of senile cataract.....*Manabu Mochizuki, Mitsuru Sawa & Kanjiro Masuda*...215

Photographic retinal densitometry in the living human eye.....*Tsuyoshi Tanino & Norio Ohba*...227

A history of ophthalmology in Japan.....*Shizu Sakai*...242

Fundus holography using fiber optic illumination.....*Tetsuo Kawara & Hitoshi Ohzu*...287

Ultrastructural observations of the retinal pigment epithelial cells following experimental occlusion of the posterior ciliary artery in the rhesus monkey. Early changes of the damaged retinal pigment epithelial cells.....*Satoki Ueno, Masato Ohkuma & Isamu Tsukahara*...297

Pigmented paravenous retinochoroidal atrophy.....*Yoichi Takei, Masao Harada & Katsuyoshi Mizuno*...311

Histochemical studies on the distribution of acid phosphatase in the normal and ischemic retina.....*Tadasu Kikuchi, Yoichi Takei & Katsuyoshi Mizuno*...318

Studies on the early receptor potential in the human eye.
VI. ERP in the fellow eyes of patients with idiopathic retinal detachment.....*Akihiko Tamai*...335

In vitro degradation of rod outer segment lipids by acid lipase.....*Seiji Hayasaka, Satoshi Hara, Katsuyoshi Mizuno & Seiei Aizu*...342

Glycoproteins of the cattle lens plasma membrane.....*Izumi Kabasawa & H.N. Fukui*...348

A case of congenital ocular motor apraxia with cerebellospinal degeneration.....*Makoto Araie, Tetsuma Ozawa & Yutaka Awaya*...355

Current status of retrolental fibroplasia. Report of the joint committee for the study of retrolental fibroplasia in Japan.....*Yasuo Uemura*...366

Effects of oxygen and photocoagulation on developing retinal vessels of the rabbit.....*Keiji Oshima*...379

Photodynamic inactivation of herpes simplex virus.....*Yasuo Tano, Shigeru Kinoshita, Kenichi Kishida, Jiro Hara, Kosaburo Sato & Reizo Manabe*...392

Introduction to the symposium: Retinopathy of prematurity.....*Isamu Tsukahara*...401

Studies on retinopathy of prematurity: I. Statistical analysis of factors related to occurrence and progression in active phase.....*Akio Majima*...404
Studies on retinopathy of prematurity: II. Fundus appearances and ocular functions in cicatricial phase of very low birthweight infants.....*Akio Majima*...421
Treatment of acute proliferative retrolental fibroplasia with xenon-arc photocoagulation: Its indications and limitations.....*Makoto Nagata*...436
Experimental approach to the pathogenesis of retrolental fibroplasia.....*Yasuo Uemura, Shinobu Akiya, Tetsuya Ogata, Yoshihisa Oguchi & Keiji Ohshima*...460
Muscular neurotisation in surgery of traumatic abducens paresis.....*Hermann Aichmair*...477
Lymphocyte transformation test in Vogt-Koyanagi-Harada syndrome .....*Sakae Momoeda*...488
Effects of polychlorinated biphenyls (PCB) on dissociated conjunctival cells in vitro.....*Yoshitaka Ohnishi & Shinichi Noda*...496
Unusual developmental anomaly of the macula, characterized by bilateral "papillomacular retinal fold" in identical twins.....*Yoshihiko Shiose, Takako Kanda, Teruko Itoh & Yoshikatsu Kawase*...507
Effects of cholinergic agonists on isolated iris sphincter muscles: A pharmacodynamic study.....*Kunitoshi Ohara*...516
The Komoto library.....*Naganori Kirisawa*...528

Subject Index of Volume 21

Anomaly	Clinical and histopathological studies of a case with juvenile form of Gaucher's disease (*Hisayuki Ueno et al.*)	98
	Unusual developmental anomaly of the macula, characterized by bilateral "papillomacular retinal fold" in identical twins (*Yoshihiko Shiose et al.*)	507
Biochemistry	Aging effects and some properties on the human lens low molecular weight proteins (*Izumi Kabasawa et al.*)	87
Cataract	Topical indomethacin in intracapsular extraction of senile cataract (*Manabu Mochizuki et al.*)	215
Choroid	Development of epithelioid cell in tuberculin hypersensitized choroid: A light and electron microscopic study (*Hidehiko Matsuda et al.*)	28
Circulation	Ultrastructural observations of the retinal pigment epithelial cells following experimental occlusion of the posterior ciliary artery in the rhesus monkey. Early changes of the damaged retinal pigment epithelial cells (*Satoki Ueno et al.*)	297
Conjunctiva	Effects of polychlorinated biphenyls (PCB) on dissociated conjunctival cells in vitro (*Yoshitaka Ohnishi et al.*)	497
Cornea	Bowen's disease: A clinicopathologic study (*Takashi Harada et al.*)	40
Electrophysiology	Juvenile macular degenerations (*J. François*)	1
	Studies on the early receptor potential in the human eye. VI. ERP in the fellow eyes of patients with idiopathic retinal detachment (*Akihiko Tamai*)	335
Electroretinogram	Effects of glutaraldehyde upon some physiological properties of rabbit retinas in vitro (*Yoshihito Honda et al.*)	72
	Experimental approach to the pathogenesis of retrolental fibroplasia (*Yasuo Uemura et al.*)	460
Electron microscopy	Development of epithelioid cell in tuberculin hypersensitized choroid: A light and electron microscopic study (*Hidehiko Matsuda et al.*)	28
	Bowen's disease: A clinicopathologic study (*Takashi Harada et al.*)	40
	Demonstration of masked acidic glycosaminoglycans in the normal human trabecular meshwork (*Kuniyoshi Mizokami*)	57

	Permeability of retinal blood vessels in spontaneously hypertensive rats (*Hiroshi Yoshimoto et al.*)	143
	Retinal arterioles in the spontaneously hypertensive and other experimental hypertensive rats (*Hiroshi Yoshimoto et al.*)	157
	Electron microscopic studies on the retina of stroke-prone SHR (*Masato Ohkuma et al.*)	176
	Electron microscopic studies on the retinal vessels of spontaneously hypertensive rats (SHR) (*Tadao Sekino*)	192
	Effects of polychlorinated biphenyls (PCB) on dissociated conjunctival cells in vitro (*Yoshitaka Ohnishi et al.*)	496
Extraocular muscle	Muscular neurotisation in surgery of traumatic abducens paresis (*Hermann Aichmair*)	477
Eyelid	A case of lymphoblastic lymphosarcoma originating from the eyelid (*Makoto Araie et al.*)	78
Fibroplasia	Current status of retrolental fibroplasia. Report of the joint committee for the study of retrolental fibroplasia in Japan (*Yasuo Uemura*)	366
Fluorescein angiography	Clinical and histopathological studies of a case with juvenile form of Gaucher's disease (*Hisayuki Ueno et al.*)	98
	Caliber measurements of the retinal vessels in spontaneously hypertensive rats (*Shuichi Matsuyama*)	206
Genetics	Juvenile macular degenerations (*J. François*)	1
Herpes simplex	Photodynamic inactivation of herpes simplex virus (*Yasuo Tano et al.*)	392
Histochemistry	Demonstration of masked acidic glycosaminoglycans in the normal human trabecular meshwork (*Kuniyoshi Mizokami*)	57
	Histochemical studies on the distribution of acid phosphatase in the normal and ischemic retina (*Tadasu Kikuchi et al.*)	318
	In vitro degradation of rod outer segment lipids by acid lipase (*Seiji Hayasaka et al.*)	342
	Glycoproteins of the cattle lens plasma membrane (*Izumi Kabasawa et al.*)	348
Histology	Clinical and histopathological studies of a case with juvenile form of Gaucher's disease (*Hisayuki Ueno et al.*)	98
	Retinal vascular changes in the genetically hypertensive rats of the New Zealand strain (*John C. Parr*)	132

	Effects of oxygen and photocoagulation on developing retinal vessels of the rabbit (*Keiji Oshima*)	379
	Experimental approach to the pathogenesis of retrolental fibroplasia (*Yasuo Uemura et al.*)	460
Holography	Fundus holography using fiber optic illumination (*Tetsuo Kawara et al.*)	287
Immunology	HLA and Vogt-Koyanagi-Harada syndrome (*Yoshitsugu Tagawa et al.*)	22
	Development of epithelioid cell in tuberculin hypersensitized choroid: A light and electron microscopic study (*Hidehiko Matsuda et al.*)	28
	Aging effects and some properties on the human lens low molecular weight proteins (*Izumi Kabasawa et al.*)	87
	Lymphocyte transformation test in Vogt-Koyanagi-Harada syndrome (*Sakae Momoeda*)	488
Iris	Effects of cholinergic agonists on isolated iris sphincter muscles: A pharmacodynamic study (*Kunitoshi Ohara*)	516
Keratitis	Photodynamic inactivation of herpes simplex virus (*Yasuo Tano et al.*)	392
Lens	Aging effects and some properties on the human lens low molecular weight proteins (*Izumi Kabasawa et al.*)	87
	Glycoproteins of the cattle lens plasma membrane (*Izumi Kabasawa et al.*)	348
Miscellaneous	Curriculum vitae of Professor Kimiho Irnoda	117
	A history of ophthalmology in Japan (*Shizu Sakai*)	242
Neurophysiology	A case of congenital ocular motor apraxia with cerebellospinal degeneration (*Makoto Araie et al.*)	355
Pharmacology	Effects of glutaraldehyde upon some physiological properties of rabbit retinas in vitro (*Yoshihito Honda et al.*)	72
	Topical indomethacin in intracapsular extraction of senile cataract (*Manabu Mochizuki et al.*)	215
	Effects of cholinergic agonists on isolated iris sphincter muscles: A pharmacodynamic study (*Kunitoshi Ohara*)	516
Permeability	Permeability of retinal blood vessels in spontaneously hypertensive rats (*Hiroshi Yoshimoto et al.*)	143
Pigment epithelium	Ultrastructural observations of the retinal pigment epithelial	

	cells following experimental occlusion of the posterior ciliary artery in the rhesus monkey. Early changes of the damaged retinal pigment epithelial cells (*Satoki Ueno et al.*)	297
Photocoagulation	Effects of oxygen and photocoagulation on developing retinal vessels of the rabbit (*Keiji Oshima*)	379
	Treatment of acute proliferative retrolental fibroplasia with xenon-arc photocoagulation: Its indications and limitations (*Makoto Nagata*)	436
	Experimental approach to the pathogenesis of retrolental fibroplasia (*Yasuo Uemura et al.*)	460
Retina	Effects of glutaraldehyde upon some physiological properties of rabbit retinas in vitro (*Yoshihito Honda et al.*)	72
	Clinical and histopathological studies of a case with juvenile form of Gaucher's disease (*Hisayuki Ueno et al.*)	98
	The ocular manifestations of spontaneously hypertensive rat (*Kimiho Irinoda*)	125
	Retinal vascular changes in the genetically hypertensive rats of the New Zealand strain (*John C. Parr*)	132
	Retinal arterioles in the spontaneously hypertensive and other experimental hypertensive rats (*Hiroshi Yoshimoto et al.*)	157
	Electron microscopic studies on the retina of stroke-prone SHR (*Masato Ohkuma et al.*)	176
	Electron microscopic studies on the retinal vessels of spontaneously hypertensive rats (SHR) (*Tadao Sekino*)	192
	Caliber measurements of the retinal vessels in spontaneously hypertensive rats (*Shuichi Matsuyama*)	206
	Photographic retinal densitometry in the living human eye (*Tsuyoshi Tanino et al.*)	227
	Histochemical studies on the distribution of acid phosphatase in the normal and ischemic retina (*Tadasu Kikuchi et al.*)	318
	In vitro degradation of rod outer segment lipids by acid lipase (*Seiji Hayasaka et al.*)	342
	Effects of oxygen and photocoagulation on developing retinal vessels of the rabbit (*Keiji Oshima*)	379

Retinal disease	Juvenile macular degenerations (*J. François*)	1
	Pigmented paravenous retinochoroidal atrophy (*Yoichi Takei et al.*)	311
	Studies on the early receptor potential in the human eye. VI. ERP in the fellow eyes of patients with idiopathic retinal detachment (*Akihiko Tamai*)	335
	Unusual developmental anomaly of the macula, characterized by bilateral "papillomacular retinal fold" in identical twins (*Yoshihiko Shiose et al.*)	507
	Introduction to the symposium: Retinopathy of prematurity (*Isamu Tsukahara*)	401
Retrolental fibroplasia	Current status of retrolental fibroplasia Report of the joint committee for the study of retrolental fibroplasia in Japan (*Yasuo Uemura*)	366
	Introduction to the symposium: Retinopathy of prematurity (*Isamu Tsukahara*)	401
	Studies on retinopathy of prematurity: I. Statistical analysis of factors related to occurrence and progression in active phase (*Akio Majima*)	404
	Studies on retinopathy of prematurity: II. Fundus appearances and ocular functions in cictricial phase of very low birthweight infants (*Akio Majima*)	421
	Treatment of acute proliferative retrolental fibroplasia with xenon-arc photocoagulation: Its indications and limitations (*Makoto Nagata*)	436
	Experimental approach to the pathogenesis of retrolental fibroplasia (*Yasuo Uemura et al.*)	460
Surgery	Topical indomethacin in intracapsular extraction of senile cataract (*Manabu Mochizuki et al.*)	215
	Muscular neurotisation in surgery of traumatic abducens paresis (*Hermann Aichmair*)	477
Strabismus	Muscular neurotisation in surgery of traumatic abducens paresis (*Hermann Aichmair*)	477
Tumor	Bowen's disease: A clinicopathologic study (*Takashi Harada et al.*)	40

	A case of lymphoblastic lymphosarcoma originating from the eyelid (*Makoto Araie et al.*)	78
Uveitis	HLA and Vogt-Koyanagi-Harada syndrome (*Yoshitsugu Tagawa et al.*)	22
	Lymphocyte transformation test in Vogt-Koyanagi-Harada syndrome (*Sakae Momoeda*)	488

Index of Authors of Volume 21

A AICHMAIR Hermann: Muscular neurotisation in surgery of traumatic abducens paresis 477

AIZAWA, Miki: see TAGAWA Yoshitsugu 22

AIZU Seiei: see HAYASAKA Seiji 342

AKIYA Shinobu: see UEMURA Yasuo 460

ARAIE Makoto: (1) A case of lymphoblastic lymphosarcoma originating from the eyelid 78

(2) A case of congenital ocular motor apraxia with cerebellospinal degeneration 355

ARIGA Kazuo: see MATSUDA Hidehiko 28

AWAYA Yutaka: see ARAIE Makoto (2) 355
